

# Aquaculture Tanks 2005 Price List

## MANUFACTURER OF FIBERGLASS AQUACULTURE TANKS, WATER CISTERNS, FISH PONDS, AQUARIUMS & CUSTOM FABRICATIONS

---

### NOTES:

- 1) The standard interior gel coat colors are white, blue, or black. Several other colors are available as an option.
  - 2) Most tanks are painted on the exterior with a water base, latex, gray primer paint.
  - 3) Prices on all 2 piece or multi sectional tanks include assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking, and gel coat) and directions.
  - 4) All measurements are outside dimensions and accurate  $\nabla$  1". The inside dimensions can be as much as 10" smaller due to the heavy flange around the top of some tanks. Check with the factory if the inside measurements are critical.
  - 5) All liquid volume measurements are figured as if the tank were completely filled with water to overflowing.
  - 6) All prices quoted do not include tax or shipping and crating of merchandise. These charges are additional where applicable.
  - 7) Discounts are available on volume of units ordered.
  - 8) Two-year limited warranty.
  - 9) This price list is effective as of January 1, 2005. Prices, materials, and/or specifications are subject to change with or without written notice.
- 

### POLICY FOR TERMS AND CONDITIONS OF PAYMENT:

#### GOVERNMENT AGENCIES OR INSTITUTIONS:

Small orders under \$1,000

Purchase order is required with payment due net 30 days.

Large orders \$1,000 and over

Purchase order is required with a 33% deposit and balance due on delivery.

#### PRIVATE CUSTOMERS:

A 50% deposit is required with each order with balance due on delivery. For all orders being shipped out of the country the balance must be paid in US dollars prior to shipment. All applicable sales taxes, duty and brokerage fees, shipping and crating charges are extra. Florida Sales Tax applies to all orders unless the customer provides a tax exemption certificate.

**Dolphin Fiberglass Products, Inc. was established in 1962 and has been manufacturing aquaculture tanks since 1988. If you cannot find what you need in our list of standard tanks we can custom build to your specifications. We have several molds in odd sizes that are not listed, and we are constantly adding new molds to our line. Please contact us for an update. We have the personnel, facility and know how to manufacture the tanks you need in any size, shape, or quantity.**

*We welcome you to visit, however, you must call in advance  
to schedule an appointment and get the factory address and directions.

20'6"	Any of these tanks can be installed with a 5 degree slope to the center. This is achieved by installing the appropriate tapered donut and sump.			N/A	\$ Call	N/A
25'6"				N/A	\$ for	N/A
30'6"				N/A	\$ pricing	N/A

NOTE: Deduct 6" from outside diameter to determine the inside diameter. All 5'0", 6'6", & 8'6" tanks with up to a 4' height are one-piece construction and require no assembly. The 10'6" tank is available as a one piece in 2', 3', or 4' depth. The 10'6" tank also comes in a two-piece design to facilitate shipping. The 10'6", 12'6", & 15'6" tanks in the 2', 3', & 4' depth consist of two half moon pieces. These same tanks in the 5', 6', 7', & 8' height consist of two half moon bottom sections with separate top sections for the added height. Skimmer boxes and viewing windows are available as options.

Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions.

**ROUND-CORNERED SQUARE SHAPED TANKS WITH FLAT BOTTOM**

DIAMETER OD	HEIGHT	GALLONS	PRICE
26'0"	5'0"	22,275	\$12,000
26'0"	7'6"	33,412	\$18,000
26'0"	10'0"	44,550	\$25,000

NOTE: Deduct 12" from outside diameter to determine the inside diameter.

The 5'0" height tank consist of 6 large sections plus center sump & skimmer. (8 pieces total)

The 7'6" height tank consist of 6 large sections plus 4 separate 2 1/2' height top sections plus center sump and skimmer. (12 pieces total)

The 10'0" height tank consist of 6 large sections plus 8 separate 2 1/2' height top sections plus center sump and skimmer. (16 pieces total)

Large acrylic windows can be installed in these tanks. Please call for a quotation.

Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions.

**ROUND WATER STORAGE CISTERNS WITH CLOSED TOP & ACCESS HATCH**

DIAMETER OD	HEIGHT	GALLONS	PRICE
5'0"	8'0"	880	\$ 1,415
6'6"	8'0"	1,560	\$ 1,975
8'6"	8'6"	2,820	\$ 3,365
10'6"	8'6"	4,725	\$ 4,630
12'6"	8'6"	6,780	\$ 5,915
15'6"	8'6"	10,640	\$ 7,950

NOTE: The 5'0", 6'6", & 8'6" cisterns are two piece construction. The 10'6", 12'6", & 15'6" are four-piece construction. The 5'0", 6'6" cisterns are flat on top. The 8'6", 10'6", 12'6" & 15'6" cisterns have a 5-degree pitch on top to shed rainwater. These tanks can be ordered with a flat top to lower the height by 6". There is no additional charge for this option. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions. The 8'0" & 8'6" heights are the most cost effective, however, the above cisterns are also available in 4', 5', 6', & 7' depths. Please call for pricing on the shallow cisterns. The hatch opening is 35" long x 15" wide.

**RECTANGULAR WATER STORAGE CISTERNS WITH CLOSED TOP & ACCESS HATCH**

OUTSIDE LENGTH	OUTSIDE WIDTH	HEIGHT	GALLONS	PRICE
8'0"	48"	8'0"	1,226	\$ 3,170
8'0"	94"	8'0"	2,726	\$ 4,180
10'0"	48"	8'0"	1,586	\$ 3,765
10'0"	94"	8'0"	3,524	\$ 4,860
12'0"	48"	8'0"	1,944	\$ 4,380
12'0"	94"	8'0"	4,322	\$ 5,545
14'0"	48"	8'0"	2,304	\$ 4,960
14'0"	94"	8'0"	5,120	\$ 6,260
16'0"	48"	8'0"	2,664	\$ 5,585
16'0"	94"	8'0"	5,918	\$ 6,935

NOTE: These cisterns consist of two pieces (top & bottom) and require assembly. Some tanks can be assembled at the factory for an additional charge. All cisterns are cored on the sides with 3" thick foam to reduce bowing and on the top with 3/4" structural foam to prevent sagging. The top hatch opening is 35" long x 15" wide. Price includes assembly materials (resin, fiberglass tape, stainless steel nuts & bolts, caulking and gel coat) and directions. The 8'0" heights are the most cost effective, however the above cisterns are also available in 4' & 6' heights. Custom sizes are also available. Please call for pricing on the shallow cisterns or custom sizes.

**ROUND CONE BOTTOM TANKS WITH VARIOUS DEGREE ANGLES**

OUTSIDE DIAMETER	SIDE HEIGHT	CENTER HEIGHT	GALLONS	CONE ANGLE DEGREE	OVERALL HGT. WITH SKIRT	NO SKIRT PRICE	WITH SKIRT PRICE

6'2"	24"	34"	475	22	42"	\$ 720	\$ 1,170

**ROUND TANK LIDS (ROOFS) WITH LARGE ACCESS HATCH**

DIAMETER OD	TANK SIZE	CENTER PITCH	PRICE
5'6"	Fits 5'0" Tank	5 Degree Center Pitch	\$ 360
7'0"	Fits 6'6" Tank	5 Degree Center Pitch	\$ 570
9'0"	Fits 8'6" Tank	5 Degree Center Pitch	\$ 840
11'0"	Fits 10'6" Tank	5 Degree Center Pitch	\$ 1,320
13'0"	Fits 12'6" Tank	5 Degree Center Pitch	\$ 1,680
16'0"	Fits 15'6" Tank	5 Degree Center Pitch	\$ 2,280

All lids are two-piece constructions with a smooth gel coat finish on top to shed water quickly and reduce mildew. Roofs are cored with 3/4" thick high-density foam to reduce sagging. The access hatch opening is 35" x 15". The price includes materials to attach the lid (roof) to your tank.

**Note: Rectangular tank lids quoted on request.**

**MOLDED ONE PIECE OVAL TANKS**

LENGTH	WIDTH	HEIGHT	PERIMETER	GALLONS	PRICE
15'8"	6'2"	2'	38'	1,170	\$ 2,500
16'4"	7'9"	3'	42'	2,400	\$ 3,600
24'0"	11'0"	6'	60'	9,670	\$12,000

The above tanks are cored on the sides to prevent bowing. They are free standing and self-supporting with no cross bracing.

**EXPANDABLE OVAL TANKS**

OUTSIDE WIDTH	OUTSIDE LENGTH	HEIGHT	GALLONS	PRICE
10'6"	18'6"	4'	4,750	\$ 4,850
10'6"	26'6"	4'	7,150	\$ 7,690

15'6"	23'6"	4'	8,900	\$ 6,500
15'6"	31'6"	4'	12,500	\$ 9,650
15'6"	39'6"	4'	16,100	\$12,800

NOTE: The above expandable oval tanks are also available in heights of 2', 3', 5', 6', 7', & 8'. Additional mid sectional panels 8' wide are available to expand the tank to any desired length in 8' increments. Please call for a price quotation. To prevent the sides from bowing some of these tanks require cross bracing at 4' intervals or require partial burial. Also available is a dividing wall that can be installed along the centerline of the tank in order to make a "D" end racetrack tank. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions.

**CENTER DIVIDING WALL**

DESCRIPTION	PRICE per square foot
The center dividing wall is manufactured in 8' wide sections and is available in 2', 3', 4', 5', 6', 7', & 8' heights. The price includes assembly materials for installation. A top cross brace may be required in some applications at an additional charge.	\$ 8.40

**FIBERGLASS PUMP HOUSE**

DESCRIPTION	PRICE
10' length x 8' width 6' height with a 4 1/2" bottom flange. Designed with twin doors and twin louvered vents for cross ventilation. Interior has white smooth gel coat finish and exterior has light gray primer paint finish.	\$ 3,600

**SKIMMER BOX**

VERTICLE HEIGHT	HORISONTAL WIDTH	FRONT TO BACK	GALLONS	PRICE
30"	24"	17"	53	\$ 450

Price includes your choice of 4", 6", or 8" PVC coupler glassed on bottom. Price includes assembly materials (resin, fiberglass tape, nuts & bolts, caulking and gel coat) and directions.

Note: We can build custom skimmer boxes. Please call for a quotation.

**SMALL OBSERVATION VIEWING WINDOWS**

DESCRIPTION	PRICE
Clear polycarbonate viewing window on side of round tank 20" X 12" opening (1/8" thick material)	\$ 225
Clear acrylic viewing window on side of rectangular tank 32" X 15" opening (1/2" thick material)	\$ 250

NOTE: Custom sizes are available. Please call for a quotation.

**FOAM INSULATION**

DESCRIPTION	PRICE per square foot
1/2" thick foam insulation on sides of tank plus additional fiberglass outer layer. (3 "R" factor)	\$ 2.85
1" thick foam insulation on sides of tank plus additional fiberglass outer layer. (6 "R" factor)	\$ 3.30
1 1/2" thick foam insulation on sides of tank plus additional fiberglass outer layer. (9 "R" factor)	\$ 3.75
2" thick foam insulation on sides of tank plus additional fiberglass outer layer. (12 "R" factor)	\$ 4.20
3" thick foam insulation on sides of tank plus additional fiberglass outer layer. (18 "R" factor)	\$ 5.00

**STRUCTURAL FOAM**

3/4" thick high-density structural foam, double contoured plus additional fiberglass outer layer.	\$ 5.00

23'2"	88"	96"	8,500	\$11,000

NOTE: Dimensions are based on overall outside measurements. The inside dimensions are as much as 10" smaller due to the heavy flange around the top of the tank that is necessary to prevent bowing. Tanks over 24" in height are cored on the sides with foam of various thickness to prevent bowing and provide insulation. Check with the factory if the inside measurements are critical. All above tanks are one-piece construction, free standing, and self-supporting with no cross bracing. For proper installation tanks must be fully supported on the bottom. Extra heavy lay-up and box legs are available as options.

A recessed dimple can be fabricated in the tank bottom to flush mount a bulkhead fitting at no additional cost.

**Note: We can custom build square & rectangular tanks to your specifications.**

**Please call for a quote.**

**RECTANGULAR TANKS WITH VARIOUS BOTTOM CONFIGURATIONS**

DESCRIPTION SYMBOL	OUTSIDE LENGTH	OUTSIDE WIDTH	HEIGHT	GALLONS	PRICE
*	5'6"	30"	12"	88	\$ 300
**	5'6"	30"	18"	130	\$ 345

•	6'3"	23"	11"	62	\$ 210
•	6'3"	36"	16"	135	\$ 360
•	8'0"	48"	24"	388	\$ 1,180
^	8'0"	66"	32"	500	\$ 1,680
U	10'9"	105"	72"	3,000	\$ 3,600
\	12'0"	96"	36"	1,615	\$ 4,560
^	15'0"	90"	42"	1,700	\$ 2,400
*	Tapered hip angled bottom w/teardrop center sump (center depth 16" & requires support base).				
**	Tapered hip angled bottom w/teardrop center sump (center depth 22" & requires support base).				
•	Flat bottom with 1" slope – deduct 1" from height to determine height at shallow end.				
^	Half-octagon type bottom, shipped in 2 pieces & requires assembly.				
U	Arched horseshoe type bottom requires leg supports, which are not included in price.				
\	Sloped 38" to 28" and has twin support box legs and cored bottom. Overall height is 46" with a gutter trough at the deep end.				

NOTE: Dimensions are based on overall outside measurements. The inside dimensions are smaller due to the flange around the top of the tank that is necessary to prevent bowing. Tanks over 24" in height are cored on the sides with foam of various thickness to prevent bowing and provide insulation. Check with the factory if the inside measurements are critical. Due to the various bottom configurations on the tanks listed above, some means of support is required for the tanks to sit level. Unless specified otherwise bottom supports are not included in the price.

Note: We custom build square & rectangular tanks to your specifications. Please call for a quote.

**RECTANGULAR AQUARIUM WITH TAPERED BOTTOM**

OUTSIDE LENGTH	OUTSIDE WIDTH	SIDE HEIGHT	CENTER HEIGHT	GALLONS	OVERALL HEIGHT W/WOOD BASE	VIEWING WINDOW	PRICE
4'6"	28 1/2"	26"	32"	150	36"	44" x 21" GLASS	\$ 1,200
10'0"	36"	24"	27"	385	36"	(2-QTY) 32" x 15" ACRYLIC	\$ 1,800

The 150-gallon aquarium has a smooth, glossy, gel coat finish on the outside and a matte gel coat finish on the inside.

Price includes 3/8" safety glass front, 3/4" thick foam core insulation on back & sides, 2 plastic support egg crate grids, 3/4" center drain sump fitting with suction screen, and 2" x 10" pressure treated wood base.

The 385-gallon aquarium has a smooth glossy gel coat finish on the inside and our standard exterior, water base, latex, gray primer paint. Price includes two 1/2" acrylic front windows, 3/4" thick foam core insulation on back and sides, 2" center drain bulkhead fitting, one top cross brace to prevent bowing, and a 2" x 12" pressure treated wood base.

**RECTANGULAR AQUARIUM WITH FLAT BOTTOM**

LENGTH	WIDTH	HEIGHT	VIEWING WINDOW	GALLONS	PRICE

12'6"	4'	7'6" x 40" Acrylic	2,530	\$ 9,600
15'6"	4'	7'6" x 40" Acrylic	3,975	\$10,200

NOTE: The front viewing area size opening can be adjusted at the factory for your specific requirement. All above aquariums are available in 3' height. Please call for a quotation on the size you need.

**ORNAMENTAL FISH PONDS**

LENGTH	WIDTH	DEPTH	PERIMETER	GALLONS	PRICE
11'8"	6'0"	3'	29'	1,320	\$1,900
14'8"	7'0"	3'	35'	2,040	\$2,600
19'8"	7'6"	3'	46'	2,880	\$3,600
*20'6"	8'6"	5'	50'	4,000	\$6,500

NOTE: All above ponds have a smooth glossy gel coat interior and flat bottom with the exception of the 20'6" length. \* This model has twin-settling chambers cast into the bottom and an overall depth of 7'6". The above listed ponds are not self-supporting or free standing. They must be partially buried for proper installation. Extra heavy lay-up with foam coring is available if above ground installation is required. These ponds are also available with a flexible polyurea skirt around the top. These custom skirts increase the overall length, width and depth of the pond and make a more natural transition for landscaping. Call for a price quote.

**VARIOUS POND OPTIONS**

QUANTITY	DESCRIPTION	PRICE	QUANTITY	DESCRIPTION	PRICE
1	3" bottom drain w/dome fish barrier	\$ 40.00	1	2" Flexible PVC pipe 50' roll	\$ 85.00

**COMBINATION SETTling CHAMBER/FILTER**

DESCRIPTION	PRICE
7'7" long x 57" wide and 57" deep to the bottom of the settling chamber with a 400-gallon capacity and a choice of lids (simulated rock or smooth gel coat). Price includes two pumps: 1/8 HP main pump and a sump pump. First the water gravity feeds to the settling chamber section, which removes 85% of the solid waste, then through the mechanical section with 6 square feet of "Bio-Fill" ribbon and last through the biological section with 4 square feet of "Matala". Price includes all PVC valves and piping. Some assembly required.	\$4,000

**UPFLOW SAND FILTER**

DESCRIPTION	PRICE
20" diameter x 4' high filter with a 50-gallon capacity. Price includes 2 pumps, 1/8 HP main pump and 3 HP back flush pump. This filter is a combination mechanical and biological filter. It is an open top, non-pressurized filter that includes 1,000 lbs of coarse silica sand. Price includes all PVC valves and piping. Some assembly required.	\$4,000

**FIBERGLASS ROCK**

DESCRIPTION	PRICE
58" long by 32" wide x 32" average height. This simulated rock is extra large and has room enough inside to cover your water pump, air blower and UV sterilizer. We recommend that two 3" holes be drilled in an inconspicuous location to allow for ventilation. This rock has a beach sand finish on the exterior. Price includes directions to paint the rock to match the natural rocks in your landscape setting.	\$ 200

**STREAM CONNECTOR – FIBERGLASS TO LINER**

DESCRIPTION	PRICE
Fiberglass connector is 2'6" wide x 6" deep and connects a flexible rubber stream liner to one of our fiberglass fish ponds. Price includes installation to customer specified location, provided this does not interfere with shipping. If installed by the customer the price is \$150 and includes assembly materials and directions. The rubber liner material is not included in the price.	\$ 225

**BULKHEAD FITTINGS**

Pipe Size	A	B	C	PVC SLIP X FIPT	PVC FIPT X FIPT	POLYPROPYLENE FIPT X FIPT
1"	2-3/4	2-1/2	1-7/8	\$ 20.00	\$ 20.00	\$ 8.50
